ABOUT ME

I'm Muhammad Hassan, an aspiring Full Stack Web Developer based in Karachi, Pakistan. I have completed comprehensive training in Web Development from Aptech, SITE Nazimabad, where I gained hands-on experience with front-end and back-end technologies including HTML, CSS, JavaScript, PHP, and Laravel. I specialize in building dynamic, responsive, and user-friendly websites. Currently, I'm pursuing my First Year studies under the Ziauddin Board while continuing to enhance my skills in modern web development frameworks and tools. Passionate about coding, design, and continuous learning, I aim to contribute to innovative projects and grow into a top-tier developer in the tech industry.

WORK EXPERIENCE. & PROJECTS

E-Commerce Fans Website Associated with Aptech

March 2025-April 2025

An E-commerce store for purchasing modern fans such as bracket fans, ceiling fans, and stand fans. I created the front-end of this website with a fully designed and animated UI. I used HTML, CSS, JavaScript, jQuery, and Bootstrap during development. Check it on my GitHub: github.com/MHassanDeveloper.

Luxury Branded Watch Store For Billionaires Associated with Artificial intelligence

May 2025 - May2025

Created a luxury watch e-commerce website targeted at billionaires, featuring premium design and high-end aesthetics. Leveraged Artificial Intelligence tools to assist in most of the development work. Integrated stunning animations for a smooth and elegant user experience. Check it out on my GitHub: github.com/MHassanDeveloper.

Weather Web App & Fast Food Website

June 2025 - August 2025

Developed a Weather App by integrating real-time weather data through APIs using JSON. Also created a Fast Food website with a focus on interactive UI, using JavaScript, jQuery, and animation libraries. Both projects feature smooth design and functionality. Check them out on my GitHub: github.com/MHassanDeveloper.
